Arts, Engineers and Normals Reach A Total of 135 Candidates for Graduation.

The list of candidates for graduation from the University of Utah has been given out, and it includes the largest number of names yet to be scheduled for degrees from the local institution. Coincident with it is the noticeable lack of Utah men among the graduates of eastern and coast universities, which have dwindled down greatly as the home institution has increased. The condition suggests the strength which is being acquired since the state institution went into its home on the hill and collected its present able faculty. The graduates in the arts department will number ten students; in the engi-grees, while of the Normal graduates neering department, 13 will receive deneering department, 13 will receive de-there are 112, which exceed the highest previous records by 21. The present encouraging showing is indicative of a etronger permanent growth next year, as the underclasses are well filled, and the high school graduates of this year, many of whom have hertofore planned to leave for outside universities, are now planning courses at the U. of U. A HAPPY THOUGHT.

Union School Students Utilize Abandoned Attic for Gymnasium.

A unique task is that which has just been completed by the principal and students of the Union school, located in the West Side High school grounds. The building was originally the state deaf mute school, and the plans included a large attic with a soundly built floor which has never been used. I floor which has never been used. It occurred to the principal to convert it into a symmasium for students, and he accordingly set about the task without funds, but with a willing band of helpers in his students and in I. Morris, a teacher of physical culture, who has a child in the school. The apparatus, which is largely home-made, as installed to date consists of one set of traveling rings, ten in number; one staled to date consists of one set of traveling rings, ten in number; one punching bag, two pairs of Spanish rings, two swinging trapese bars, two horizontal bars, a set of parallel bars, two single climbing ropes, a pair of vertical ropes hung parallel, three kicking and jumping pans, a gymnasium mat for wrestling, Indian clubs and wands.

VICTORY FOR ALL.

Mixed Result at Student Election of University of Utah.

When the votes were finally counted at the University of Utah student election yesterday afternoon, it was found that the question of victory was not decisively settled. Scratched tickets had resulted in a mixed election, which gave both factions plenty of representation in the student body offices. The results follow:
Harold M. Stephens (art), president;

Dale Pitt (engineer), vice president; Virginia Bush (engineer and art), sec-retary; Earl Havenor (engineer), treas-urer; Fred Bennion (art) and Allan Spencer (engineer), athletic council; Daniel Alexander (art), editor of Chronicle; John Jensen (art), student man-ager of athletics; Ike Alexander (art),

Wouldn't Come to Salt Lake With Husband, Hence a Divorce Suit.

In a complaint in divorce filed in the district court yesterday afternoon Ellis Saline charges his wife, Anna Saline, with desertion because she refused to leave her parents, who reside in Bear River City, Boxelder county, and come with him to this city to live. They were married at Bear River City on Dec. 20, 1901, and it is alleged that plaintiff came to Salt Lake in April, 1902, for the purpose of bettering his financial condition. He secured a good position and then went back to Bear River City to bring his wife here to live. She refused to accompany him, as she did not want to leave her parents. Upon his return to this city wrote a number of letters, asking her to come here, but she still refused, so he now asks for a divorce.

Running Down Long?

You and Your Food are a Misfit Sure

It's a relief to feel the sunshine and glow of perfect health, bounding energy and "go" of the successful, brimful-of-spirus man. The joy of living real LIFE will come back when you give your body the kind of food it is mutely appealing for, that from which it can make good the daily waste caused by brain work and exertion.

Suppose you abandon for a time the food which evidently is not properly nourishing you, and go in for a 10 day test and see how near the food expert, who

comes to your case. Drop tea and coffee absolutely and if you want to get to the front by bounds cut your tobacco down to at least one-half. Now for breakfast,

A little very ripe truit, a saucer of Grape-Nuts (not over 4 heaping teaspoonfuls with some rich cream poured over it, insist on cream, milk will do as a last resort, but water spoils the delicate sweet flavor) a slice of very hard-baked toast, thinly buttered, and a cup of Postum Food Coffee. No more,

> That will carry you until lunch time, when the same articles can be used, and add a little hot clear

Take dinner at 6 or 7 and have a generous portion of meat, only one kind. Cut out the soup and fish, have two vegetables and a Grape-Nuts pudding, a cup of Postum Food Coffee (which will not keep you awake) and one or two silces of buttered toast. UTAH SHEEPMEN SORE. John Spiers Says They Sold Their

Wool A together Too Soon.

Special Correspondence. Kansas City, May 16 .- "The sheepmen who contracted all their wool last fall and winter at 17c a pound are feel-

ing sore now when the buyers are around offering 20c for all they can get," said John Spiers of Ogden, Utah, yesterday. "In years gone by wool was worth but very little, the sheepmen had worth but very little, the sheepmen had hothing but the sheep as a mutton product, and the price of mutton was at that time nothing to brag on. But now it is a different proposition, as the wool brings in a nice sum of clean cash in the spring. We formerly bred sheep for the wool alone, but that kind of sheep were no good for mutton, but now we are raising sheep intended for mutton, while they produce good wool."

Although buyers were better able to handle cattle last week than they have been lately, the market declined 15 to 25 cents, covering pretty much all been lately, the market declined 15 to 25 cents, covering pretty much all classes of cattle. Stockers and feeders lost about the same, but the heaviest loss was on the fleshy feeders, Colorado and Idaho hay fed steers were included in the receipts, but representation from the Panhandle country was very small, the Panhandle country was very small. Idaho hay fed steers sold at \$4.25 to \$4.65, bulls in same shipment \$2.60 to \$3.40. Colorado feeders \$4.65, and a shipment from Fowler, the sugar beet country, weighing 1,150 to 1,246 lbs, sold at \$5.45 to \$5.65. The supply today is 7,000 head, market steady to strong on everything, except fat steers, which are weak to 10 cents lower. Two shipments from the western slope sold Commissioner Richards of the general land office has issued the following notice of the establishment of the Uintah land district in this state and the location of the land office thereof at Vernal, in Uintah county:

"Notice is hereby given that in accordance with the provisions of the act of Congress, entitled, "An act to provide delay to the weak to 10 cents lower. Two shipments from the western slope sold today, one a bunch of light feeders, at \$4.40, with a few out at \$4.20, and some heavy hay fed feeders, 1.130 to 1.225 lbs, at \$4.60 to \$4.90. There was just a good steady market today, generally satisfactory to shippers, and indications do not point to much change this week. At this time last year, prices on killing cattle were nearly a dollar lower than they are now, and the average this month so far is sel-

the average this month so far is sel-dom exceeded in May.

Not many fed sheep are coming now, only a few fed ewes last week, no wethers or yearlings. Some wooled fed lambs were here, and sold from \$6.60 lambs were here, and sold from \$6.60 to \$6.85. The market gained 15 to 25 cents during the week. Texas mixed sheep made up most of the supply last week, and sold at \$4.40 to \$4.85. The supply today is fair, at 5.500 head, market 10 to 15 cents higher. Fair to good Colorado lambs sold at \$6.85 today, Texas wethers \$4.85, Arizona mixed sheep \$4.90, Texas ewes \$4.50, and fed Texas wethers \$4.85. The Texas stuff is extra good this season, and is killing out even better than expected. Markets are, therefore, active and snappy as one of the main causes for slow, weak markets is an inferior class of receipts. Texas stuff is making good weights, also, averaging from 88 to 110 weights, also, averaging from 88 to 110 lbs, generally close to 100 lbs.
